SUMMARY

This bill implements the recommendations of the Department of Economic and Community Development relating to streamlining and improving the comprehensive economic development evaluation for the State's economic development programs and incentives. It also reduces duplicative statutory reporting requirements that will be included in the department's comprehensive evaluation process. The bill also amends the definition of "economic development incentive." It also increases the maximum budget amounts of contributing programs and organizations that can be assessed for economic development evaluation and research and development evaluation. It repeals the provision of law that allows the State Tax Assessor to withhold reimbursement for taxes paid on certain business property from a claimant who has failed to provide certain information to the Department of Economic and Community Development.
